

NODE RED CREATION

Team ID	PNT2022TMID48383
Project Name	Smart Farmer-IOT Enabled Smart Farming Application

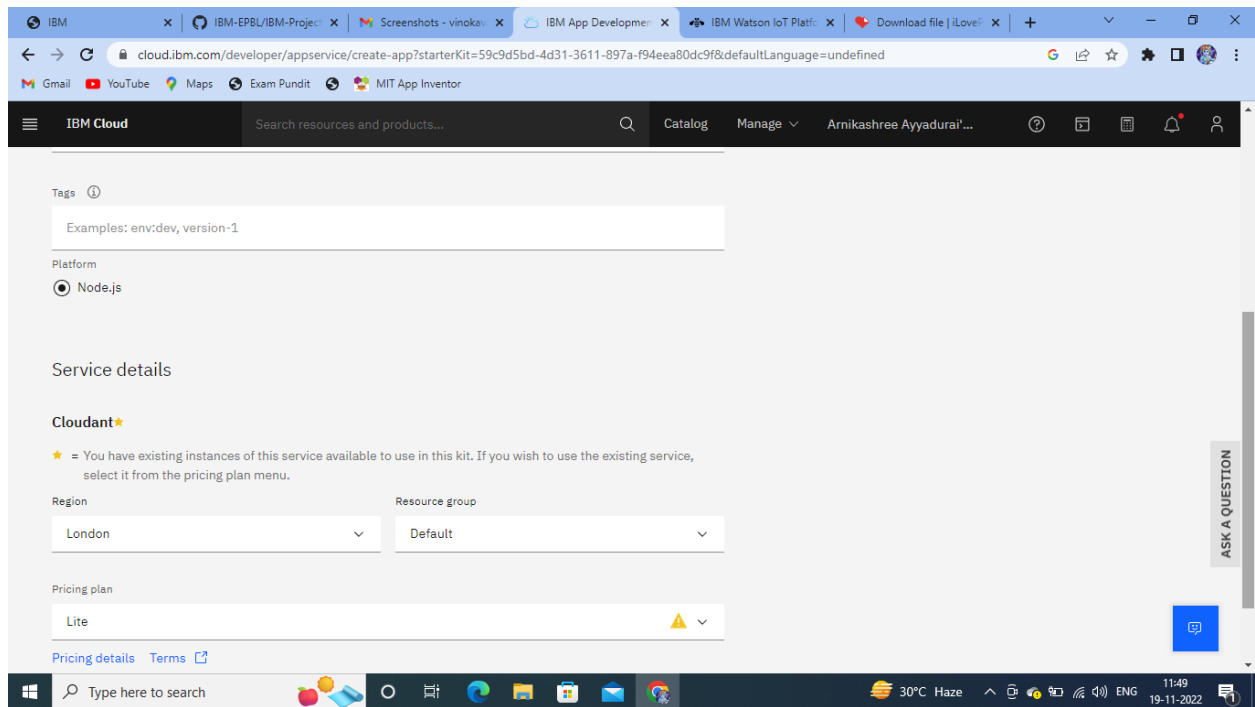

First login into IBM cloud and click the Catalog button.

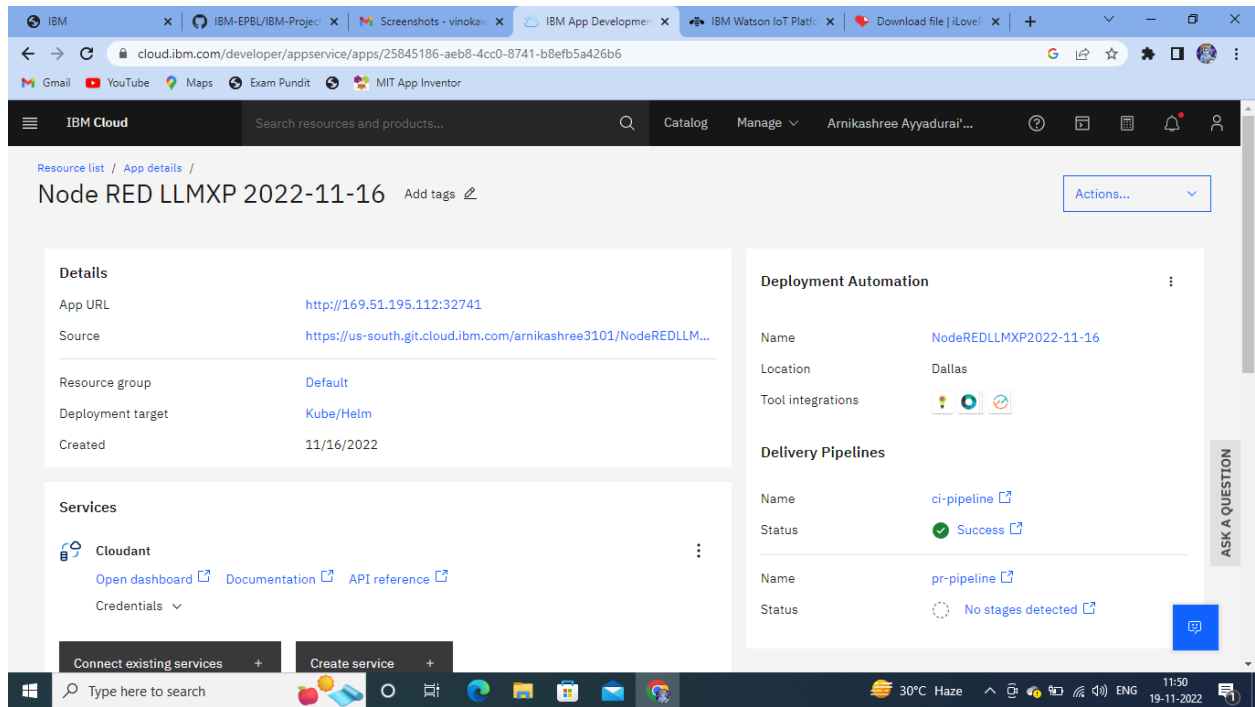

Type in search bar node-red and click the Get started.

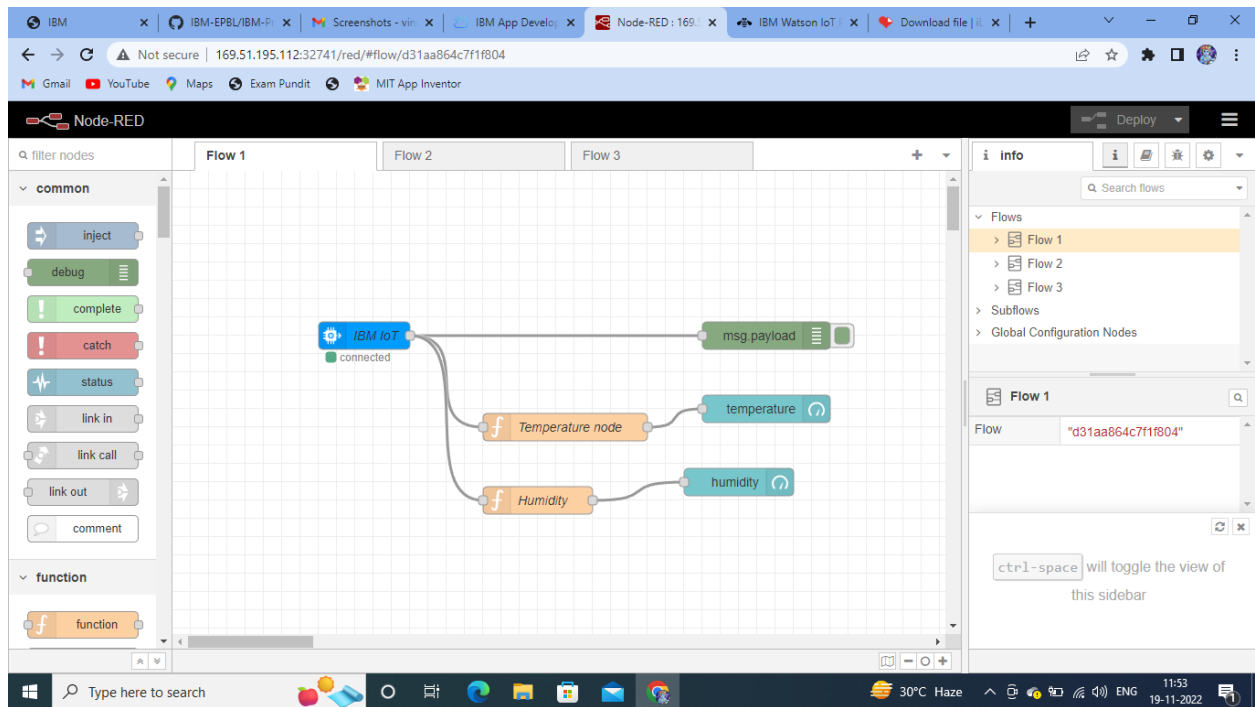

Now click the Create button.

Now it is going to create app URL.

And click the go to your Node-RED flow editor.

Now finally we created the NODE-RED and process on going.
